2 Chinese.

Reports.

The French bark *Dardoue* reports Southerly
and S.W. winds until the 25th, then from the
Eastward.

The British brig *Edmund Walpole* reports
between the 11th and 14th of August, a
strong gale of wind from S.W. veering
N.W., lost much canvas, while home to under
bare poles, the rain was incessant and the
weather extremely thick.

The British steamer *Fauchef* left Shanghai
at 3 p.m. on the 20th August, and anchored
the same night near the Lightship. Weighed
next morning with strong breeze, and anchored
again at 1 p.m. at the Chungan Quay, where
remained twenty-four hours. Next day weighed
and proceeded. On the 22d August, anchored
in the Pihkow River three miles on a bare
rock about 24 miles distant, waving and
endeavoring to attract attention. Sent a boat
and found them to be Chinese, who said they
were starving, their boat having been taken by
pirates. They were sent to the Chungan Quay
during the night, to be fed, and made
Food steamer, *dog*, and one supposed to be
Ottawa, bound up. Arrived at Hongkong on
the 26th.

British Mail To-day.

J. M. ARMSTRONG,
Household and Office Furniture.

mences on Friday morning at 10.15, and the last im-
pressions left the office at 10.27.

The Daily Press

HONGKONG, AUGUST 27, 1870.

The N. C. Daily News throws out a suggestion, which it may be hoped will command due consideration with the European Powers. Considering the possibility that, with the responsibility of conducting the operations of the war which has unfortunately broken out in Europe, France may not be able at once to send out the troops necessary to make such a display as may bring the Chinese to reason, it is suggested that some other nation should send soldiers to China, to impress upon them the necessity of maintaining peace. So intimately is the safety of one foreign nation bound up with that of another in these parts, that so soon as menaces are directed against one, the security of all becomes impaired. Other nations besides France are, therefore, directly interested in the course of events at the present time; and, not only in the interests of peace, but as a means of protecting their subjects in these parts, they should not hesitate to take at least preliminary steps towards the settlement of the difficulties. It is impossible to allow the winter to overtake us without due means of security being provided in the North. At Tientsin, the community would be utterly helpless, as no garrison could go up the river during the winter months; and, if time be allowed indefinitely to elapse before a settlement be come to, there is only too grave reason to fear that difficulties may occur at other ports; and it is most likely that the subjects of other nationalities will be involved in them. However erroneous the idea entertained at home upon the nature of relations with China may be, it can scarcely be supposed that, under circumstances such as those now existing, the Home Government will be so ill-advised as to continue a line of policy which has already encouraged the Chinese to commit so grievous an outrage as that which has just occurred. The most peace-loving can hardly be so foolhardy as to advocate the continued withdrawal of forces when a blow has been already struck. The mere regard for self-preservation must dictate a contrary course, and a grave responsibility will devolve upon the neglect of such obvious precautions. The power most interested in the matter is undoubtedly Great Britain, on account of the enormous trade which she has in these parts; and it may also be added that there is certain claim upon her aid, inasmuch as, however much the fact may be shirked over, it cannot be denied that it is to her mistaken policy during the past two or three years, that the present difficulties are mainly attributable. Had the Government in England not turned a deaf ear to the warnings raised by men thoroughly conversant with affairs in this country, there cannot be a doubt that the Chinese would not have dared to carry matters to the length which they have, under the belief which they have gradually been encouraged to form that foreign nations were too weak to protect themselves in these parts. It would not be any difficult matter for five or six Sibk regiments to be despatched from India, as is suggested by one of the Calcutta papers. This would be quite sufficient to overawe the Chinese, and to prevent any disturbance until such time as the matter can be settled. The fact of one of the murdered Sisters being a British subject, would give England definite grounds for taking such

steps, apart from the necessity in which all foreigners are equally concerned, of preventing further outbreak. If no action be taken, the idea that foreign nations cannot now protect themselves will be further encouraged; and it is therefore most desirable for the interests of all in China that the security of foreigners should be in some way guaranteed. The latest accounts from the North state that the Pekin Authorities have been informed officially of the war between France and Prussia; and it may be taken as certain that, in their present mood, they will consider an opportunity is offered for holding out against the demands made, the consequence of which must in all probability be the increase of the widespread factions feeling against Europeans, which brought on the Tientsin disaster.

The resignation of Mr. Wimberley, formerly H.M. Consul at Shanghai, has, it is stated, been accepted. The reason for his retirement is understood to be failing health, after some twenty-five years' service.

The COLONIAL SECRETARY said that that might not be erected without a license from the Government.

The Hon. Mr. ROBERTS—There should be known whether the Surveyor General has granted the license.

HIS EXCELLENCY asked whether this mat-

ter should be more dangerous than the one over the court house opposite the Hongkong Club.

The Hon. Mr. ROBERTS said it would not except that the latter had stood the rain.

The COLONIAL SECRETARY and it has been up to him to decide.

The Hon. Mr. ROBERTS thought that even if there had not been wrong done, in that case it had not been seen at 10 a.m. on Sunday.

His Excellency said that they must then pull down the wall.

The Hon. Mr. ROBERTS was prepared to do this.

The COLONIAL SECRETARY—I think as we have done with ours, we may as well pull it down, and order that in which first prisoner had as he was, was removed.

HEALTH RESTORED
BY THE USE OF
BRISTOL'S SUGAR-COATED VEGETABLE PILLS!

THESE Pills have just acquired a widely extended reputation for their wonderful curative powers in cases of sickness—cases in which all other Medicines had failed, and which had been given up by Physicians as beyond help. Such cases are often referred to the above Company, who are confident and fond of giving Bristol's Sugar-coated Pills. Drayton, &c., &c. But while admitting their wonderful curative powers in different cases, we wish to call attention to their great value in the every-day diseases of life, such as CONSTIPATION, HEADACHE, rheumatism, &c., &c. Indigestion, always removed by them, and the stomach toned and strengthened to prevent a return. BAD BREATH cannot exist when the stomach is cleansed by them.

BRISTOL'S SUGAR-COATED PILLS.

PURPLE VEGETABLE.
For LOSS OF APPETITE they are the only cure known, at they never fail in carrying off the depraved bilious secretions that flock in the stomach and destroy the healthy, natural appetite for food. Sooth Stimulants, &c., &c. Flatulence and other symptoms of the Digestive and Excretory Organs, are promptly relieved and cured by them. The public should always bear in mind that Bristol's are the only Pills worth using.

PODOPHYLLIN & LEPTANDRIN.

to the presence of which valuable resinoids in a great measure ascribed. It is necessary, however, that the sick should always remember that in all diseases that have their origin in the blood.

BRISTOL'S SARSAPARILLA.

that lost of blood-purifiers should be used with the Pills, as the two Medicines being prepared expressly to act in harmony together. When this is done faithfully, we have no hesitation in saying that great relief, and, in most cases, a cure can be guaranteed to the patient if not entirely by the pills, but by the use of them.

For general directions and table of doses, see the wrapper around each phial of Pills; but as different constitutions require different doses to produce the same effect, it is better that each person ascertain, by trial, the dose that suits their system, and take that dose, instead of following any general rule.

FOR SALE AT THE HONGKONG DISPENSARY.

PROVED BY THIRTY-FOUR YEARS' TRIAL.

IT is a true saying, that any preparation intended to stand the test of public trial and experience, must be possessed of solid and positive virtues. This one will be speedily acknowledged, and its very name be forgotten among the myriad of similar failures that have gone before it. Proved by this test,

THE STELLING EXCELLENCE OF BRISTOL'S SARSAPARILLA.

It was first introduced in the year 1831, and, from that date until the present time, it has shown a steady increase in the demand on the preceding one, until to-day it is acknowledged, to be the best Blood Purifier.

BENEFICIAL TO HEALTH.

For every of whom inflammatory disease is a curse and debilitate remedy, a perfect antidote to malignant corruption of tissues, a cure for inflammation, a preservative of debility, and a healthful aromatic. It is purely vegetable and entirely healthful, and no harm can ever result from its free use. The public should therefore use it.
